

TITAN 2500

Right- and lefthand overedging machines designed to be included in fully automatic lines : where both sides of the carpet are overedged simultaneously, more than doubles the production.

APPLICATIONS

Overedging (serging) of woven, tufted or needle punched carpets with any type of backing. Light or heavy materials can be handled by the machine, with all types of threads.

TITAN 2500 - Two threads finishing.

TITAN 2500/3 - Three threads finishing

OPTIONS

Are designed to reduce unproductive times and are making the adjustments easier

They will determine the productivity and the quality of your finishing department

For the full description of these options, please look at the TITAN 25/4500 Options page.

REMARKS

- 2500/3 : 3-thread overedging machine available
